SPOTLIGHT

Rail Awards

This nomination is judged through aims and objectives; innovative delivery; and infrastructure benefits for the best use of technology (infrastructure). All criteria should be completed for nominations to be considered, with a limit of 1250 words overall.

Additionally, this nomination should relate to activities conducted from June 2023 to June 2024. It's likely that many viable entries will overlap outside of this period, as long as the entry demonstrates that it was 'in progress' during June 2023 to June 2024 it will be accepted and judged on its merits.

Our judges will be using a points-based system which will allow them to easily benchmark each entry against each other. Each criterion is weighted equally, please ensure you take your time to demonstrate the quality over each criterion.

Any supporting evidence should be attached during the submission process. Video content to support entry will need to be submitted as a link, and images should be submitted as a .jpeg or .png file.

Company logos need to be submitted in an SVG, EPS or high definition .png file.

Aims and Objectives (25 Marks)
Demonstrate why these aims and objectives are important to you, your company, and the wider industry.

Innovative Delivery (25 Marks)
Show evidence of why the project stands out and the innovative approach taken. Outline what makes the project award winning.

Infrastructure Benefits (25 Marks)
Explain the infrastructure benefits of the project, service, solution or product, and how it has/will impact the industry.

This can be demonstrable in terms of environmental benefits, cost savings, improvement in safety, quality, or a change in the behaviour of people.
